

Technical Documentation for ARSHBOC02.dbf

The file **ARSHBOC02.dbf** contains population estimates by age, race, sex, and Hispanic Origin for 2000-2002. These estimates were developed by the U.S. Census Bureau through the Federal-State Cooperative Program for Population Estimates. They are based on a cohort-component methodology. These estimates were released on September 18, 2003 and they are scheduled to be updated on an annual basis.

Comparable estimates for other states can be obtained from the Census Bureau's website, <http://eire.census.gov/popest/estimates.php>

The database was prepared by the Library of Michigan in dbf format, which is recognized by most database, spreadsheet, and statistical programs. It contains the following fields:
